We are pleased to offer the samples free of charge, please note that the transportation costs will need to be covered by your organization.

We believe this arrangement allows you to evaluate our products without any initial investment, while also ensuring that the logistics are managed efficiently.

Additionally, we would greatly appreciate your feedback after you have received and evaluated the samples.

Your insights are invaluable to us as we strive to improve and innovate.

If you have any questions or need further information, please do not hesitate to contact me.

Thank you for your understanding.
